

CLI::FormatterBase

```
classDiagram
    class CLI::FormatterBase
    class CLI::Formatter
    class CLI::FormatterLambda
    CLI::Formatter --|> CLI::FormatterBase
    CLI::FormatterLambda --|> CLI::FormatterBase
```

The diagram illustrates a class hierarchy. At the top is the base class 'CLI::FormatterBase'. Below it are two derived classes: 'CLI::Formatter' on the left and 'CLI::FormatterLambda' on the right. A horizontal line connects the two derived classes, with a vertical arrow pointing upwards from the center of this line to the base class, indicating that both 'CLI::Formatter' and 'CLI::FormatterLambda' inherit from 'CLI::FormatterBase'.

CLI::Formatter

CLI::FormatterLambda
